

Flat Panel Drapery Install

Getting Started

Carefully read all instructions before you begin installation. Please make sure that you have your rod drapery hardware mounted to the wall. Be careful as you unpack the flat panel drapery as drapery pins have been pre-installed. As a standard we set the drapery pins every 8 inches, if you desire a much fuller look, consider further spacing between the pins. Hooks may also be raised or lowered +/- ½ inch to adjust the height.

Installing Your Flat Panel Draperies

1. Make sure you have the right number of rings or traverse eyelets for each hook. Attach each end of the panel first.
2. Attach the remaining hooks into the eyelets. (Repeat Step 1 and 2 for all panels)
3. Shape out folds to achieve desired look.

Drapery Care

Once the draperies are installed most wrinkles and folds will hang out on their own within 1 - 2 weeks. A garment / commercial steamer may also be used to help smooth out the wrinkles. Certain fabrics like silks or linens have natural characteristics that steaming won't remove.

Questions? Help?

Our dedicated customer service team is available to answer any questions you may have about your drapery. Contact us at 1-800-256-5005 or customercare@regaldrapes.com.
